[FOR IMMEDIATE RELEASE]

New York, NY – [May 15, 2023] – FRAME Foundation held its annual fundraising dinner, FRAME Under the Stars, April 27, 2023 at the elegant Bryant Park Grill. The event was a tremendous success, with over 100 guests in attendance and over \$100,000 raised for the organization's mission to eradicate chronic pain by addressing muscles.

The evening began with a cocktail reception, where guests mingled and enjoyed passed hors d'oeuvres and live music while bidding on an array of silent auction items. The evening's emcee, Mentalist Brian McGovern, delighted guests with strolling up-close magic during the reception and a thrilling live audience performance. The event also included an inaugural presentation of the Hans Kraus Award, awarded to Dr. Roger Hartl, for his advancement in research, education and training in muscle pain.

The event also included speakers who shared inspiring stories about the impact of FRAME's work. "We are thrilled with the turnout and the generosity of our supporters," said Mandy Garten, Executive Director of FRAME Foundation. "The funds raised at FRAME Under the Stars will enable us to continue our mission of providing cutting-edge research, education, and advocacy to address the global problem of chronic pain by addressing muscles." FRAME Foundation would like to extend a special thank you to the event's Platinum sponsors, WWT, Norman Marcus Pain Institute, and the Ken and Julia Lowe Foundation, whose contributions helped make the evening possible.

FRAME Foundation is a non-profit organization dedicated to improving the lives of people living with chronic pain by advancing the understanding of the role of muscles in pain and providing education and resources to healthcare professionals and patients.
